EVENTS OF INTEREST.

Affairs Have Taken a New Turn at Manilla.

AGUINALDO IS QUITE ACTIVE

Has Declared Himself Dictator Over the Islands.

HE WILL BE SAT UPON, THOUGH.

German Ambassador Calls on the President and Secretary of State, Probably to Declare Germany's Undying Friendship For Spain.

Washington, July 23.—There were several events of interest, if not of importance, at the war and navy departments.

General Anderson, at Cavite, sent a message saying that Aguinaldo had declared a dictatorship and martial law over the Philippines, something that gave the cabinet food for consideration at their regular meeting.

There was no disposition to force any issue with the insurgent chief at this time, but it is pretty well understood that he will not be allowed to commit the United States government in future treatment of the Philippine question.

The visit of the German ambassador to the president and secretary of state was a basis for a belief that he had called to make some representations on that subject, and perhaps as well on the question of peace as affected by the program laid down by Watson's projected voyage to European waters.

If so no official confirmation was obtainable, and "a friendly visit" was the only explanation offered by Secretary Day for the appearance of the German ambassador in the dogdays in Washington.

The embassy people were no more communicative, so that if anything of importance passed during the meeting between the president and Dr. Von Holleben it probably will be revealed only in the shape of action later on.

It would not be surprising if it should develop that strong European influences are being brought to bear to dissuade the navy department from dispatching Watson's fleet to Europe. But so far they appear to have been ineffectual, for it is officially stated that the departure of the squadron is only delayed, not abandoned.

Although General Miles reported by cable from Mole St. Nicholas, Haiti, that he was "moving along well with the first detachment of the artillery expedition against Porto Rico," the body of his dispatch preceding this statement

GAVE RISE TO APPREHENSION. That, like Shafter at Santiago, General Miles was threatened with a costly delay in landing his expedition on Porto Rican soil owing to the absence of lighters and tugs.

It was said at the war department later on that some of these lighters were already on their way from New Orleans and New York, and that no sensible delay would arise on that score.

It appears from General Miles' first statement relative to Colonel Hecker that he was not acquainted with the necessity that had arisen for the officer's presence in Washington in order to provide for the speedy transportation to Spain of the troops surrendered at Santiago.

The brief report from Admiral Sampson declaring the success of the expedition to Nipe is really more important than appears on its surface. The bay of Nipe lies on the north coast of Cuba, almost directly across the island from Santiago. It is purposed to establish a base there which will save at least two days' time in getting supplies into Cuba as compared with the Santiago route.

It will also be a good point against Holguin, not far distant, and if it should develop unfortunately that a restraining hand may be laid upon the Cubans themselves, Nipe, in connection with Santiago, would be an effective means of doing this.

The war department has not yet been informed that General Shafter's Cuban allies have quit the American lines for the reasons set out in a printed letter by General Garcia; but it is scarcely doubted that such is the case, for the friction has been growing more pronounced every day since the fall of Santiago, and it is feared that a severance of relations can not be longer avoided.

Santiago de Cuba, July 22, via Washington, July 23.—The Mississippi came

in yesterday. Issued to troops and hospitals 25,000 pounds fresh beef. Full rations of fresh bread issued to two divisions, and in few days all will have fresh bread; ovens now on the way. Adjutant General Corbin met me at Siboney.

WESTON, Chief Commissary.

Uncle Sam's Prizes.

Washington, July 23.—The Ladrones Islands in the Pacific are to be permanently held by the United States as a coaling station, and Porto Rico will become a part of the United States.

Were In Ignorance.

Santiago de Cuba, July 22, via Washington, July 23.—Sent two troops of cavalry with Spanish officers and Lieutenant Miley to receive surrender of Spanish troops at San Luis and Palmas. They had not heard of loss of Cervera's fleet or of Toral's surrender; they declined to surrender unless they could come in and see for themselves. A detachment of officers and men came in last night and returned this morning, apparently satisfied.

SHAFTER.

Number of Men Actually Engaged in the War Against Spain.

Washington, July 23.—A consolidated statement prepared by Major John A. Johnston, assistant adjutant general, shows that of the 277,500 men authorized by congress to be enlisted in the regular and volunteer armies 254,479 up to this time have been mustered into the service. Of the 23,021 yet required to complete the authorized quota of the army, 13,308 are regulars; 8,000 are volunteers under the second call, 862 are immunes, and 851 are engineers.

The authorized strength of the regular army is 61,000. On April 30 it contained 26,500 men. Since that time 23,192 recruits have been obtained from a probable 75,000 applicants by a limited number of recruiting officers, for the most part strangers in the country canvassed and during a period of competition by state authorities for the same men.

In the opinion of the officials of the war department the returns of regular army enlistments will show a progressive increase as this competition ceases. The strength of the regular army, least recent casualties, estimated at 2,000, is 47,693.

The authorized strength of the volunteer army is 216,500. Of this number 125,000 were included in the president's first call for troops, all of which have been recruited, mustered and put into the field; 75,000 were included in the second call, 67,000 of which have been mustered into the service; 3,000 were to constitute three special regiments of cavalry, 1,000 were immunes, and 3,500 were engineers.

Of the volunteers under the second call 35,000 thus far enlisted have been distributed among incomplete organizations already in the field, and 32,000 constitute new organizations.

SENSATIONAL REPORTS

Over Arrival of Hospital Train With Two Dead Bodies.

Cincinnati, O., July 23.—A special hospital train arrived over the Cincinnati Southern and the Chesapeake and Ohio railways.

It brought 135 sick soldiers from Tampa to the hospital at Fort Thomas, Ky.

Two previous trains had brought 225 wounded and sick soldiers to Fort Thomas, making a total now of 360 in the hospital at that place.

Two dead bodies were taken from the trains and the reticence of the surgeons and other attendants caused sensational reports at Fort Thomas. No names or other information would be given out, but it was denied that the two victims died from yellow fever.

Quite a crowd was at the depot. Two dozen street cars were in waiting to transport sick soldiers from the train to the hospitals at Fort Thomas. There are no wounded soldiers in the list, but many are seriously sick.

Use of Distilling Ships.

Washington, July 23.—A step of permanent advantage to the navy is the providing of distilling ships. These carry a large apparatus for transforming ordinary sea water into palatable drinking water. Ordinarily a tank steamer carrying fresh water has comparatively a small capacity, probably 3,000 to 4,000 gallons; but by the process of distilling one pound of coal will transform 30 pounds of sea water into fresh drinking water. The distilling ships therefore carry ample supplies of coal for their distilling apparatus, as the coal represents 20 times its weight in fresh water. The Iris and the Rainbow are now being fitted with distilling machinery.

Entirely Successful.

Santiago de Cuba, July 22, via Washington, July 23.—Expedition to Nipe has been entirely successful, although the mines had not been removed for want of time. The Spanish cruiser

Jorge Juan, defending the place, was destroyed without loss on our part. The Annapolis and Wasp afterward proceeded from Nipe to assist in the landing of the commanding general of the army on arrival at Porto Rico.

SAMPSON.

Spain Not to Be BombarDED.

Washington, July 23.—The cities on the Spanish coast are not to be bombarded. The mission of Watson is to destroy Admiral Camara's fleet. The movement of this fleet and the fears and apprehension caused by reports concerning it are to be stopped for all time. The ships under Camara will be located by Watson and destroyed. This government has no plan to take the Canary Islands and does not want them.

Forming the Battle Line.

Cavite, July 23.—The entire regiment of First California volunteers advanced to Janbo, only two miles from the Spanish lines surrounding Manilla. The California troops have been thrown out by General Anderson to form the advance of the attack in force. South Manilla is to be captured first.

Old Monitors Repaired.

Washington, July 23.—The engineering branch has recently completed its work on the three old, single-turreted monitors, Manhattan, Canonicus and Mahopiac, lying at League Island navy yard. This work was done in a curious fashion in order to save time. Ordinarily the putting in of new boilers, such as were needed for all three of these monitors, would have required the tearing up of the iron decks and some elaborate reconstruction. To obviate this the boilers and machinery were made up in small sections and passed down the smokestacks. The work is now finished, with the decks in as good condition as before.

Filles Disappointed.

Mole St. Nicholas, Haiti, July 22, via Washington, July 23.—Am disappointed in non-arrival of Colonel Hecker with construction corps. Colonel Black arrived without snag boats or lighters. Please send at least four strong sea-going steam lighters and tugs. Also General Stone's boats at Jacksonville if not already sent, as soon as possible. Moving along well.

MILES.

Returned the Duplicate Pay.

Columbus, O., July 23.—State Auditor Gulbert has received the sum of \$3,787.49 from Colonel C. V. Hard, of the Eighth regiment, now in Cuba. This sum is the pay given by the state to the officers and men of the regiment, which was afterward duplicated by the government. The Eighth regiment and the Ninth battalion are the only organizations which have refunded, all the others refusing or neglecting to do so.

Duplicate Parts Made.

Washington, July 23.—As a war expedient Chief Engineer Melville has adopted a plan of having duplicates made for all important parts of steam machinery on the war vessels, so that when a break occurs it can be remedied in short order. The supply ship Vulcan, which recently went to Santiago, carried a large assortment of these extra parts, and is ready to meet any emergency.

No Meeting.

Paris, July 23.—The Matin publishes a paragraph saying that while nothing definite is known that Senor Leon y Castillo, the Spanish ambassador at Paris, is instructed to approach General Horace Porter, United States ambassador to France, with the view of opening secret peace negotiations. Up to 3 p. m. there had not been any meeting between Senor Castillo and General Porter.

Supplies For French Citizens.

Santiago, Cuba, July 23.—The French cruiser Rigault de Genouilly arrived here with supplies for the relief of the French citizens of Santiago. A large exodus of Cubans is expected during the next few days, as they are returning to the cultivation of the country, that work being the chief source of the wealth of the island.

Want Communication Established.

Madrid, July 23.—It is said in official circles that no dispatches having been received recently from Captain General Blanco, the Spanish government is considering the means of restoring communication with Cuba.

Not Confirmed.

London, July 23.—Inquiries made in official circles fail to confirm the statement of the Spanish minister, telegraphed from Madrid, to the effect that peace will shortly be concluded.

Atlanta, Ga., July 23.—The city was decorated with endless miles of bunting for the confederate parade at 5 p. m. A resolution was passed to substitute for the "War of the Rebellion" the expression "The Civil War Between the States." Charleston, S. C., was selected as the place for the encampment next July.

Entirely Successful.

Santiago de Cuba, July 22, via Washington, July 23.—The Mississippi came

WITH THE GOLD HUNTERS.

Rich Man From Rochester Drowned In Copper River.

Juneau, Alaska, July 13.—The town of Skagway is still under martial law and the saloons are closed. Twenty-six men who have been bound over by the United States commissioner have been taken to Sitka.

City Surveyor Reid, who killed "Soapy" Smith recently, received a wound in the hand and may die of blood poisoning.

J. W. Tanner of Juneau has been appointed deputy United States marshal at Skagway in place of Taylor. The latter is charged with neglect of official duty.

Lightning Telegraph Apparatus.

Washington, July 23.—The very latest development in field telegraphy and telephony was represented in a handsomely equipped, double-horse wagon that was driven into the courtyard of the war department for inspection of the military officers there. The wagon is one of 20 designed by Colonel Strong to construct flying telegraph lines over battlefields to maintain army headquarters in communication with heads of divisions and with the central authorities in Washington. The wagon has four folding tables, which, when thrown up, formed desks on which are placed a set of telegraph and telephone instruments. Batteries are carried beneath the seats, while the coils of wire are so arranged as to be strung out as fast as the wagon can be driven.

A Woman's Bones Found.

Columbus, Ind., July 23.—While digging a cistern on a lot belonging to Aday Keller at Third and Sycamore streets, Jesse Hoard unearthed the bones of a grown woman. She had been buried in a pine trunk, which had all decayed but the pine knots and the iron bands and brass lock. The sole and toe of a woman's shoe were found at one end where the trunk had laid and a portion of her skull at the other end.

The femur bones had been sawed in two, which leads to the belief that a

a murder was committed years ago and the body cut in two in order to get it into the trunk.

Battle With a Snake.

Wabash, Ind., July 23.—Mrs. John Lower of Paw Paw township had an exciting experience with a snake. While picking berries in a field, a large blacksnake wrapped itself around her ankle. She wrenched herself loose from the reptile, which repeatedly renewed the attack, and finally wound itself so tight about her limb that, after a desperate struggle, she dragged herself to the fence, got a club and pounded the snake to death.

Wrestled With the Bull.

Wabash, Ind., July 23.—Cyrus McDaniel of this township, while crossing a field was attacked by a bull, which knocked him down and attempted to gore him. The animal trod upon the prostrate man, breaking several of his ribs and bruising him from head to foot. Mr. McDaniel finally managed to seize the ring in the animal's nose, to which he clung until he had dragged the bull to a fence, over which McDaniel climbed to safety.

Enters the Newspaper Field.

Elwood, Ind., July 23.—City Judge G. W. Alford, an ex-member of the state senate and well known through the west as a minister of the gospel, has embarked in the newspaper business in this city, having purchased a one-half interest in H. E. Mason's printing establishment. They will issue a semi-weekly Republican paper. This is Mr. Alford's first venture in the newspaper field.

A Telephone Company's Threat.

Morristown, Ind., July 23.—The Central Union Telephone company threatens to withdraw its office from this place and run its line around the town, owing to the fact that the town council demands \$100 for the franchise which the company asks. The town council will not accede to the demands of the company, and it is thought the \$100 will be paid.

Religious Excitement.

Windfall, Ind., July 23.—Mrs. Jennie Nay has been declared insane, the result of religious excitement. She is the wife of John Nay, and the mother of three small children. For years herself and parents have been followers of the Maria Woodworth faith.

Washington, July 23.—Corson & McCarty for some years the leading stock brokerage firm in this city, made an assignment to Charles M. Robinson, one of the firm's employees. The liabilities are stated at \$261,142, assets \$36,095. The failure is ascribed to bad investments and losing speculations.

Great Sensation In Russia.

St. Petersburg, July 23.—The ladies of the Russian court are greatly upset at the fact that the czarina has forbidden cigarette smoking in her presence, and have petitioned her majesty to withdraw the prohibitory ukase, pointing out that ladies smoke cigarettes at all the courts of Europe, and that there are smokers among the crowned heads and the princesses of blood royal, including the dowager czarina, the empress of Austria, the queen of Roumania, the queen regent of Spain and the queen of Portugal.

The Weather.

For West Virginia—Partly cloudy, with showers in eastern portions; warmer; east-south winds becoming southwesterly.

PUSHED WITH ENERGY.

American Troops Debarking At Manilla.

BOYS PLACED IN THE FIELD.

The Cruiser Boston Was Used to Cover the Landing.

SHE OCCUPIES GOOD POSITION.

Brigade Commanded by General Anderson Still at Cavite, But the Troops Are Ready to Move and No Time Likely to Be Lost.

Manilla, July 19, via Hongkong, July 23.—The disembarkation of the American troops composing the second expedition is being pushed with the utmost energy. The Colorado regiment is already in the field near Paranagi and other regiments will be transferred without any loss of time from the transports to the camp in native boats.

The United States cruiser Boston has been detailed to cover the landing parties. She now occupies a position almost within range of the guns of Fort Malato which is only a short distance from Manilla proper.

The brigade commanded by General Anderson is still at Cavite but his troops are ready to move.

THE EXCELLENCE OF SYRUP OF FIGS

is due not only to the originality and simplicity of the combination, but also to the care and skill with which it is manufactured by scientific processes known to the CALIFORNIA FIG SYRUP Co. only, and we wish to impress upon all the importance of purchasing the true and original remedy. As the genuine Syrup of Figs is manufactured by the CALIFORNIA FIG SYRUP Co. only, knowledge of that fact will assist one in avoiding the worthless imitations manufactured by other parties. The high standing of the CALIFORNIA FIG SYRUP Co. with the medical profession, and the satisfaction which the genuine Syrup of Figs has given to millions of families, makes the name of the Company a guaranty of the excellence of its remedy. It is far in advance of all other laxatives, as it acts on the kidneys, liver and bowels without irritating or weakening them, and it does not gripe nor nauseate. In order to get its beneficial effects, please remember the name of the Company —

THE CONGRESSIONAL RACE.

Lewis County Will Instruct For Kehoe Without Opposition—Republicans Against Pugh.

VANCEBURG, KY., July 21.—James N. Kehoe, candidate for the Democratic nomination for Congress, is here to-day. He will receive the instructions from this county without opposition.

A number of Republicans offer their support on account of the local fight against Congressman Sam Pugh.

Modest estimates place his probable majority over Pugh at 1,500 as there is a fight on the latter in every county, and as the district last fall went 1,223 Democratic.

Sulphur Prevents Yellow Fever.

The Scott County (Mississippi) Register of June 15th, republishing what was said in Our Dumb Animals about the use of sulphur for the protection of soldiers, adds:

"In conversation recently with a gentleman who passed through the 1878 yellow fever epidemic in Memphis, the writer was informed that the officers and employees of the Howard Association, who were engaged in distributing medicines and supplies to the needy during that scourge, wore sulphur in their shoes, and that, without a single exception, they escaped the disease, notwithstanding some of them visited where it raged in the most malignant form, notably the Pinch and Happy Ho'lo'lo districts of Memphis. The gentleman in question also attributed his escape from the fever that year to the wearing of sulphur in his shoes."

At Fremont Park.

The Great Rosar Musical Trio, La Petite Eileen, wonderful child artist, and Geo. Harris, eccentric comedian. These are under engagement for Fremont Park next week. To them will be added the cream of farces and you have a great bill. Monday night will inaugurate it and the prospects are flattering for a fine business. Ten cents is all it costs you and Fremont Park is the place to go.

A balloon ascension to-night at 7 o'clock to which you are invited and then the vaudeville at 8:30 for mirth and amusement. The good audiences nightly certainly speak louder than mere beating of drums or ringing of bells. You know, Fremont's.

ARMY SCANDAL.

Tampa is Discussing One Growing Out of Transportation of Troops and Supplies.

TAMPA, FLA., July 21.—Tampa is discussing an army scandal to-day. To be sure, it is only whispered, but the whispers might as well be shouts, as far as range and territory are concerned. The basis of the story is found in a telegram from the Secretary of War arbitrarily directing that no contract for the transportation of troops from Tampa be given to the Plant System. Then there is a story of an investigation and a meeting of army officers at which pointed inquiries were made concerning the purchase of water at one half cent per gallon, and the sale of the same water after its transportation on a steamer leased by the Government at one and half and two cents per gallon. The water was bought for the Government, transported by the Government and sold to the Government, the whole arrangement being very profitable to all concerned, except the Government and the soldiers who drank the water. Then there is a story of a dam at St. Petersburg which was begun but never finished, which was built as far as it went with Government money and abandoned for apparently no cause whatever, except the conviction of some people that a competing water plant was not desirable under the circumstances—and there are stories of other things that water, in fact, of nearly everything else but air—and to tell the truth the air comes in, for it was the demand of the soldiers and their doctors for change of air that developed the opposition of some army officers to any change at all, and centered the attention of officials at Washington upon specific details usually left in the hands of subordinates. The end of the story is that henceforth the war will be carried on largely outside of Tampa, and, as far as possible, with the prime purpose of fighting Spain. Incidentally it is said there will be some changes in the assignment of executive officers for the good of the service.

In the meanwhile arrangements are being pushed for the rapid removal of the troops now here to Fernandina over the Florida Central and Peninsula lines. The movement is temporarily delayed on account of lack of cars, but the assurance is given that beginning to-morrow at least one regiment daily will be moved. So far only the Thirty-second Michigan and First Florida regiments have gone. It is thought that the eight regiments of volunteer troops here will leave within a week.

It is perhaps significant that five transports which were due here four days ago have not come into port. It is said here that they have been turned back on account of a misunderstanding between the Government and the Plant System.

TELEGRAPH MESSAGES.

They Must be Stamped by the Sender.
Ruling of the Commissioner of Internal Revenue.

Mr. Will Gibson, manager of the local office of the Western Union Telegraph Company, is in receipt of the following:

THE WESTERN UNION TELEGRAPH CO.
EXECUTIVE OFFICE,
NEW YORK, July 14, 1898.

The Commissioner of Internal Revenue has promulgated the following decision, viz.:

Upon the question as to whose duty it is to affix a stamp required by the act of June 13, 1898, to each telegraphic message offered for transmission, you are advised that this office rules that this duty devolves upon the person who makes signs or issues the message.

Section 7 of the act provides that if any person or persons make sign or issue any instrument, document, or paper of any description whatsoever, without the same being duly stamped for devolving the tax thereon, the said person or persons shall be deemed guilty of a misdemeanor, and on conviction thereof shall pay a fine of not more than \$100. Telegraphic despatches and messages are enumerated in the act as requiring the documentary 1 cent stamp.

Section 15 of the act imposes upon the telegraph company a penalty of \$10 for transmitting any despatch or message that has not been stamped in accordance with Section 7.

Managers will be guided by this decision in the acceptance of messages for transmission, as directed in my general order of June 27.

Consumption Positively Cured.

Mr. R. B. Greeve, merchant, of Chilhowie, Va., certifies that he had consumption, was given up to die, sought all medical treatment that money could procure, tried all cough remedies he could hear of, but no good relief; spent many nights sitting up in a chair; was induced to try Dr. King's New Discovery, and was cured by use of two bottles. For past three years has been attending to business, and says Dr. King's New Discovery is the grandest remedy ever made, as it has done so much for him and also for others in his community. Dr. King's New Discovery is guaranteed for coughs, colds and consumption. It don't fail. Trial bottles free at J. J. Wood & Son's drug store.

THE Pendletonian says the tobacco crop in Pendleton County is decidedly backward and the acreage somewhat less than growers had calculated on putting out, caused by the long-continued dry weather. In some sections of the county, however, good stands were secured at the first season and with these crop prospects are very fair, but with the late setters it will require the most favorable conditions from now on to make anything like an average crop.

LITTLE Miss Florence Stoker, of Riverside, entertained quite a number of her friends yesterday afternoon from 2 till 4. After indulging in games and other plays they were invited to the dining room where an elegant lunch was served. Those present were: Misses Nellie Hooper, Mary L. After spending a pleasant afternoon all returned home with hearty good wishes for the happiness of their little hostess.

Through the Store!

SCISSORS.

For 25 cents we sell a pair of such excellent quality it has really surprised us. We really hardly hoped for so much goodness at 25c. They come in various lengths and you will find them to last a long time. Good cutters, all of them, and put up in neat sheath.

EXTENDERS.

With addition of the Shirt Waist extender it is impossible for the blouse front of a waist made of light material or the front of a shirt waist to fall in to the figure. Two sizes, medium and small, 25c. Skirt extenders give a graceful addition to the figure and a proper set to the skirt. Light and can't get out of shape. In gray and white, 25c.

COOL CORSETS.

Light weight yet all the right shape of the figure kept. Delightful for hot weather. Cool, strong nettings, medium length, French bust, extra long waist, bound with best English horn, 50c. a pair. A few sizes in surprise Corset left. Because out of some sizes the price is 50c., instead of 75c.

D. HUNT & SON.

AT CAMP THOMAS.

The Maysville Recruits in the Second Kentucky Regiment Are Having a Good Time.

Mr. John T. Cook, of this city, who enlisted as a private in the Second Regiment of Kentucky volunteers, in a letter from Camp Thomas, Chickamauga Park, to Mr. Frank Landgraf, tells of soldier life at that point as follows:

I arrived here all o. k. and am having a good time. I am in Company C, Second Regiment of Ky. All the Maysville boys are in good health and the best of spirits. Army life is all o. k. so long as you are with a good company. The boys have a good time with me, as I am the only one that can make balloon ascensions and cut blue coats for bumble bees. Chickamauga Park is a grand place. It looks like a great city. There are between sixty-five and seventy thousand soldiers here, and when you see 5,000 drilling in one field it is a grand sight. There is plenty of good music here. All that you can hear is some regiment band playing "Marching Through Georgia" or some other national air. Things are lively here, sure. This is the place for all the Maysville boys that are out of work. Tell Jim Small that the company that I am in is composed of Winchester and Mt. Sterling boys. There is one of Jim's friends by the name of Rusty Sutherland that sends him regards. You can tell Mr. Dinger that I saw some of the Illinois boys and they told me that the Indiana regiment had left and gone to Tampa, Florida. We don't know when we will leave here; it may be that we will stay here for one or two months, but all the boys are ready to go at any time.

Grub is pretty fair; we have beef, potatoes, bread, hard tack and coffee, with cream in it (nit). Well this evening some of the boys are going to get a pass to go down to Snodgrass, where the big battle was fought in '62. There is a great tower there which you can walk up and see in seven States. They say it is a grand sight to see, and so I will get off and go down and look about a little. Tell Bob Frost that if he had his base drum here he could get a good job.

The boys and they send their regards to all of you. There is plenty of money here, all kinds of it. I have joined the Y. M. C. A. and promised not to drink as long as I am in the company. When you write don't forget to send a few stamps along, as they are very scarce here. See Joe Coughlin and tell him this is the place for him; it would do him good, and when the war is over he can locate in the Philippine Islands and raise coconuts, and get rich. Regards to all the boys. Give my love to my mother and tell her that I am all o. k., in good health and am having a good time, also give my regards to your clerks. Stoner is doing the barber act this morning in great style. Bode is going to church this morning. I have not seen "Blue" or John Setters, but there is no danger of them getting lost, as there are plenty of guards here to find you when you get off your "beat."

JOHN BENNETT, colored, charged with stealing Mr. Charles Biggers' horse the other night, was located at Ripley Friday by Deputy Sheriff Mackey, who had him placed under arrest. Bennett refused to return without a requisition.

How To Look Good.

Good looks are really more than skin deep, depending entirely on a healthy condition of all the vital organs. If the liver be inactive, you have a bilious look; if your stomach be disordered, you have a dyspeptic look; if your kidneys be affected, you have a pinched look. Secure good health, and you will surely have good looks. "Electric Bitters" is a good Alterative and Tonic. Acts directly on the stomach, liver and kidneys. Purifies the blood, cures pimples, blotches and boils, and give a good complexion. Every bottle guaranteed. Sold at J. J. Wood & Son's drug store. Fifty cents per bottle.

20 Per Cent. Discount on Dress Goods.

For the next week we will offer thrifty purchasers a rare chance in Dress Goods buying. All of our great stock of Henriettas, Serges, Coverts, Poplins and Cheviots in black and colors, and all novelty goods subject to a discount of 20 per cent. If you buy now it means a clean saving of 45 per cent. Extra duty on wool, war taxes, etc., mean an advance of 25 per cent. on woollen goods next fall. Besides our Dress Goods prices are always under others. This is a great opportunity for the prudent buyer. It's entirely our loss and your gain. But we want the shelf room and no mid-summer dullness.

Some More Ribbon Bargains.

These are a few odds and ends in fancy stripes and checks. Everyone of 'em sash widths and of best grade silk. The 89c. kind is now 59c. a yard. The 59c. kind of regular 75c. value we've reduced to 30c. a yard.

The Shirt Waist Sale.

The past week's Shirt Waist business is proof evident that you appreciate a really good bargain. We'll continue the sale for another week. The \$2 White Pique and Lawn Waists are now \$1.59. All of our former \$1.25 Waists are now 79c. and a regular 75c. Waist reduced to 39c. But they are selling rapidly. You'd better come soon before best are picked over.

Big Crowd Expected on the Excursion To Lexington To-morrow—The Band Will Furnish Music.

The necessary arrangements have been made, and Maysville's superb band will accompany the excursion to Camp Corbin, Lexington, to-morrow. A large crowd will no doubt take advantage of the low rate, and go up to see the soldier boys and witness the presentation of the handsome flag to Company B. The L. and N. offers a round trip rate of only \$1. Special train will leave Maysville at 8 o'clock to-morrow morning. Returning the train will leave Lexington at 6 p. m.

Contributions to defray the expenses of the band can be left with Mr. J. Barbour Russell, at M. C. Russell & Son's store.

The Lexington Leader states that the Fourth Regiment now has its full quota of men; in fact if all those yet to be examined should pass there would be more than enough to fill the companies to the maximum number of 106 enlisted men to each. The Adjutant's report shows that there are 1,310 men in Camp Corbin exclusive of the staff and company officers. All of these have been examined except about 140. It is expected that Capt. Dixon's company will be mustered this afternoon or Sunday, so it is a certainty that Monday morning will see 1,272, the maximum number, enlisted men mustered in as the Fourth Regiment, Kentucky Volunteer Infantry.

Lexington Leader: "No information has yet been received as to the moving of the regiment, but it is learned that Governor Bradley is making an effort to have it sent some other place than Chickamauga. The reason for this is that there is so much sickness there. It is therefore, in view of the Governor's efforts, quite probable that the Fourth will go to some other point than Chickamauga, Camp Alger, or some eastern point. The men have heard so much about the great amount of sickness and the intense severity of the hot weather at Chickamauga that most of them prefer to go somewhere else."

Miss Mattie Marion, a beautiful mountain girl, has been made daughter of the Fourth Regiment. Her home is in Manchester, Clay County, and she is a niece of Captain M. J. Treadway. She will go along with the regiment and will have her own tent in the headquarters row. Miss Marion has taken great interest in the Fourth and she is now raising the money with which to pay for the handsome flag and colors that will be presented to the regiment. The Fourth is the only regiment which will have a lady with them at all times and the soldiers are quite proud of 'their fair daughter.'

INTERESTING RELIC.

Mr. Alex. Calhoun Has One of the Shells Fired By the Brooklyn at Cervera's Fleet.

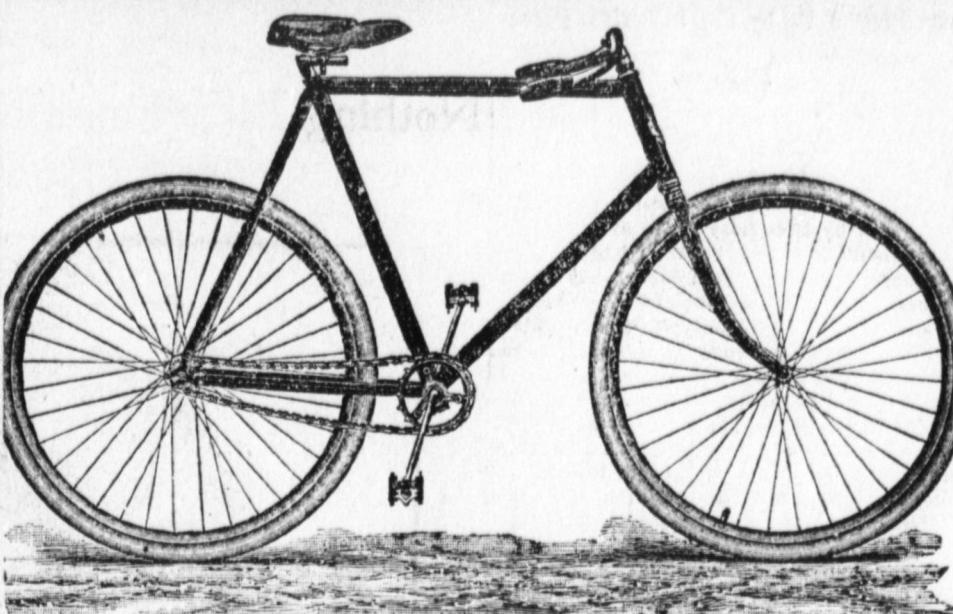

Mr. Alex. Calhoun received this morning by express from his son, Mr. Frank Calhoun, of Newport News, an interesting relic of the battle between the American and Spanish fleets at Santiago July 3rd, when Admiral Cervera's vessels were all sunk.

The relic is the empty shell of one of the six-pound solid shots fired by Commodore Schley's vessel the Brooklyn.

Two of them were received at Newport News by a friend of young Mr. Calhoun, and the latter obtained one of them and sent it to his father.

It is on exhibition at Mr. C. C. Calhoun's grocery.

A
Continuation
of Our
\$7.65 Suit
Sale.

We will continue to sell \$10, \$12 and \$15 Suits for \$7.65 during this entire month. There are two reasons for this. One is that we find we have many more good Suits to put in this sale than we thought we had. The other reason is that our many country patrons are in the midst of the heaviest work of the year and did not yet have an opportunity to avail themselves of these splendid bargains, hence the sale continues during the month.

Don't
Miss the
Opportunity

of buying for \$7.65 a Suit of Clothes that would cost you from \$12 to \$15 elsewhere, and at these prices you would not pay too much for them. They are worth it. Respectfully,

HILDEBRAND CAPTURED.

Constable Dawson Works a Neat Trick at Manchester to Get His Man.

William Hildebrand, who is wanted here for shooting at Rees Wallingford one evening early this week, was captured yesterday at Manchester by Constable Dawson.

The officer learned that his man was in the lock-up at Manchester on some minor charge and arranged with the officials of that city to have Hildebrand released on condition that he would at once leave the State. Hildebrand agreed, and was escorted to the ferryboat by the Marshal of Manchester. On reaching the Kentucky shore, he was arrested by Constable Dawson who brought him to Maysville and had him jailed.

Hildebrand will be given a hearing Monday afternoon at 2 o'clock before Squire Grant. He shot four times at Mr. Wallingford, but the latter was not injured.

MAYSICK.

A very pretty and interesting event of the week in these parts was the Christian Endeavor social given by Miss Mary Finch at her lovely "Maplewood" home on Monday evening. Notwithstanding the threatened inclemency of the weather a good sized assemblage were present, and enjoyment of a most cultivated order ruled the hours of the evening. The young hostess saw to it that the commingling for a high social purpose should be carried out to the letter. Miss Myra Myall, the efficient President of the society, arranged a delightful program with the same laudable object in view, and under the skilled leadership of Rev. G. F. Taubman the entertainment was, as it purported, "a social," in the fullest meaning of the term. The occasion opened with a brief and appropriate prayer by Rev. Dr. Buckner, of Washington, after which the musical part of the program was introduced and for sometime held sway. Mrs. Hattie Mitchell rendered some most choice selections in beautiful and artistic voice, interspersed, they were, with fine chorus arrangements. Mr. Taubman was never in better voice, which is saying much for gifted in song, as in speech, is this eloquent pastor of Mayslick Christian Church. Songs sacred, patriotic and of tender sentiment were chiefly in order. A lovely songstress, as well as fair to look upon, was Miss Turner, of Eminence, Ky., who quite captured the enraptured listeners with a catchy, taking song of the war, setting forth the Dewey naval achievement at Manila. She gave a pretty love song in response to an encore. In addition to music other features of entertainment contributed their quota to the pleasure-ruling hours. Mr. Taubman delighted with an interesting talk on the International Endeavor Convention at Nashville, which he attended. Miss Mary Morgan Warder read a lovely paper in which was interwoven with fine effect the legend of St. Cecilia. Miss M. E. Ware, the silver tongued lecturer from Kansas City, gave a bright and humorous talk on her "Early School Days at Mayslick." Miss Ruth Myall entertained with a humorous recitation. Miss Mary Finch read, in her usual fine manner, a bright and witty letter from Mr. W. Chandler, the faithful and well equipped teacher of Mayslick. No less perfect, and it goes without saying, enjoyable was the finale. We refer to the delicious refreshments which the handsome mistress of "Maplewood" had arranged after her own high order. This too was complete in every part and the Endeavorers with their guests left, expressing the wish that the doors of "Maplewood" might ever be open to "Christian Endeavor societies."

HERE'S A GOOD ONE.

The Greenup Democrat's Version of Br'er Davis' Open Letter to Congress-man Pugh.

[Greenup Democrat.]

Tom Davis, of the Maysville Ledger, which has found nothing too mean to say of Hon. Samuel Pugh, now that Pugh is nominated, begins to tremble in fear, and comes out in an open letter, which reads about this way:

Dear Mr. Pugh: Please forgive me for the nasty things I said about you. I was only foolin' and didn't mean a word. Somebody lied on me and you both and told me things that you said which I now know you didn't say. I was also mistaken about you promising me that postoffice. Oh, Sammy, I have been a naughty little Tommie, b'it don't spank me this time and I always will be good. Keep popper Morg Thomas off of me and let me go on printin' my little paper. Oh, mister Pugh, I don't think you had anything to do with sending out all them garden seed for 'lection purposes, and I don't believe you have been sucking the office teat too long, although I hadn't oughter put it in my paper. Give my love to Morg and reserve a gob for yourself. Sincerely, LITTLE NAUGHTY TOMMIE.

P. S.—Sam if you wanter put anything in my paper, send it along. Write soon and tell me that I am your own little Tommie again.

REPENTANT TOMMIE.

MAYSVILLE NEGROES IN TROUBLE.

Four Jailed on Charge of Stealing at Glen Springs.

Vanceburg Sun: "Seaton Alexander, Henry Alexander, Henry Allison, George Clarke and Watt Johnson, four Maysville 'coons,' were arrested by Marshal Smith last Wednesday night on the charge of stealing a lot of bedding and table linen from the hotel at Glen Springs, where they had been employed. A lot of the stolen goods was found in their possession.

"They were tried by Judge Holderness Thursday afternoon and bound over to court under bonds of \$150 each.

"Johnson gave bond, but the rest will await court, the guests of Col. Tannian."

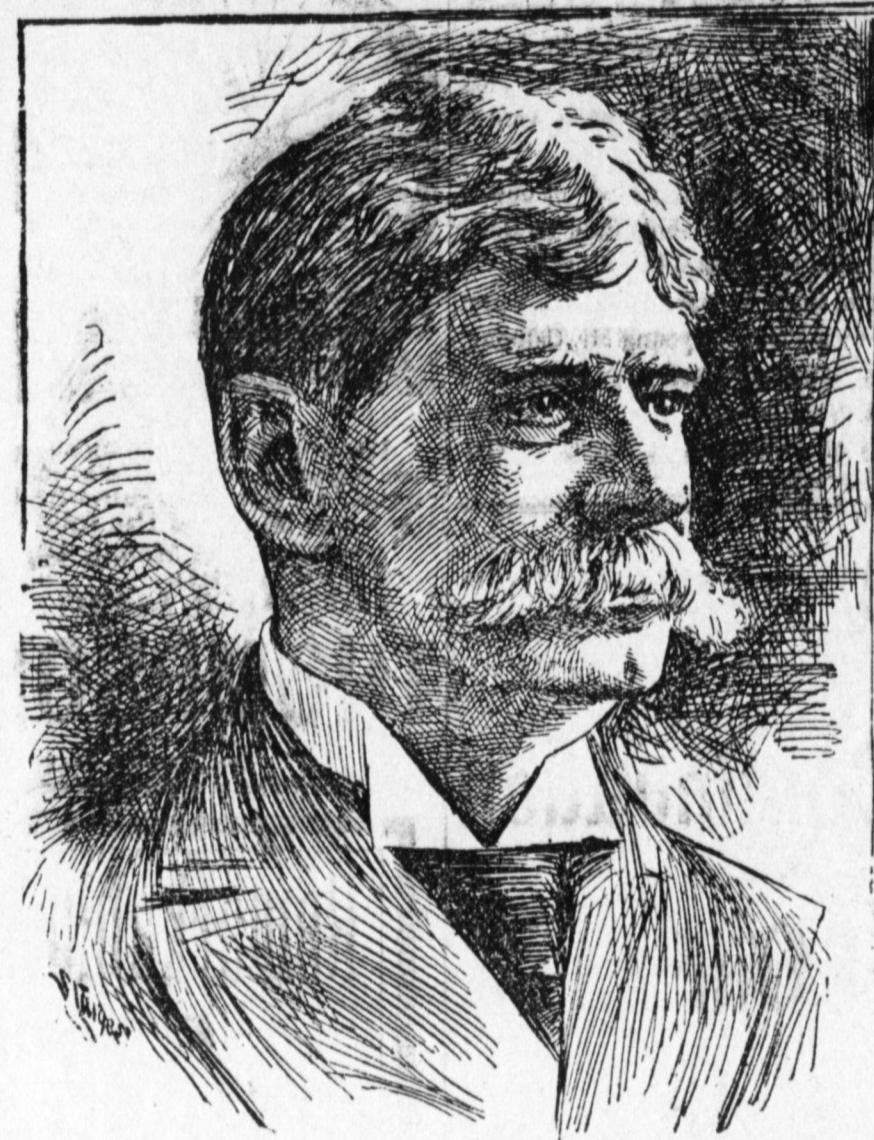

The things that people see are inside of them and not outside. No two people see the same thing exactly alike. One woman may look out at a beautiful landscape and see all the beauty and restfulness and grandness that there is in it. Another one will look out at the same scene and see nothing. The man who is perfectly well and vigorous enjoys life to the full. Dr. Pierce's Golden Medical Discovery makes people well. There isn't anything miraculous about it—it is the most natural thing in the world. It simply puts the digestive organs, the stomach, the liver, the bowels, in perfect order and thereby makes the blood pure and rich. All diseases live and thrive on impure blood. Keep a stream of pure, rich, red blood flowing into a disease spot, and the disease will not stay. A man lives on rich pure blood, and the disease dies on it.

Dr. Pierce's Golden Medical Discovery makes pure, rich blood. Send 21 cents in one-cent stamp to World's Dispensary Medical Association, Buffalo, N. Y., and receive Dr. Pierce's 100-page "Common Sense Medical Adviser," profusely illustrated.

San Francisco, July 22.—Ex-Queen Liliuokalani, attended by her physician, Dr. English of Washington and Mr. and Mrs. Heleluka, has arrived from Washington, en route to Honolulu. The party will leave on the Gaecle next Tuesday for the Hawaiian Islands.

THE GOVERNOR OF RHODE ISLAND.

Nothing Like Paine's Celery Compound For Run Down Nerves.

Governor Elisha Dyer was elected Governor of Rhode Island in 1897 and re-elected in 1898.

General Dyer is a graduate from Brown University and Geissen University, Germany. He served as Sergeant during the civil war and was Adjutant General of Rhode Island from 1882 to 1895. He writes, April 17, 1898:

"I have heard so many flattering statements of what Paine's Celery Compound has done that I feel sure it will be of great benefit to me, particularly at this time when I have so much anxiety and nervous strain."

Paine's Celery compound, upon which so much praise has been bestowed, which the wealthy and those in the highest positions unhesitatingly endorse, is within the reach of the humblest family in the land.

The incalculable amount of good that Paine's Celery Compound is doing in making sick and even despairing people well should compel the attention of every judicious person who is out of health.

WHEAT sacks, wheat storage, wheat insurance and market price paid for wheat at the Old Gold Mills.

The underlying cause of nervous debility, apparent in headaches, dyspepsia, sleeplessness and neuralgia, is faulty nutrition of the entire nervous system.

So long as the blood is pale, watery and hampered by bad humors the nerves cannot assimilate proper nourishment, no matter how much food is taken into the system. Paine's Celery Compound arouses a hearty appetite, regulates the bowels and brings about a normal action of the liver.

This is the sweeping and thorough manner in which Paine's Celery Compound frees the system not only of rheumatism, eczema, salt rheum and other disease due to impure blood, but also of neuralgia, sleeplessness and nervous headaches and dyspepsia that are brought about by a "run-down" state of the nerves.

The use of Paine's Celery Compound makes all the difference between impure, sluggish blood and tired nerves; and healthy, energetic bodily condition.
